

International Lightweight Talks:

Urban, Circular, Innovative

Tuesday, September 21, 2.30 PM (CET)

With our first digital “International Lightweight Talks” we will bring you in contact with international innovative companies – and that very conveniently and without traveling via livestream. Take advantage of the opportunity to find out about current lightweight technology projects from various countries and make contacts with global customers and partners.

14.30 Greeting

14.40 Focus Architecture

- ▼ Modular Plus-Energy – Germany’s Greenest City District
